All of the aforementioned cases involve the illegal distribution of Anabolic Steroids and Androgenic Hormones. The FDA has conducted an extensive investigation and estimates a large Black Market sales of these drugs.

The FDA requested assistance from Federal Bureau of Investigation (FBI). The FBI agreed to a joint investigation. (See Bureau airtel to Los Angeles, dated 9/13/85, LA File 196B-4188).

The investigation to date substantiates violations of various FDA regulations and possibly a Fraud Against the Government (FAG) violation.
